## Special to the APPEAL

## Evans and Sontag are Desperate.

Fresno, Sept. 13.—A posse encountered Evans and Sontag at Sampson Flats today about noon, and an exchange of shots took place. The robbers made a desperate defense and killed four men and wounded others.

Those killed are S. McGuinness, U. S. Marshal Dick Olsen, a man named Wilson and another whose name has not yet been learned. George Wittey who was wounded before was again shot, and a horse ridden by Constable Hill was shot from under him.

A posse consisting of the above named, two Apache scouts and one or two others, had tracked the robbers from Dunlap to Simpson Flat, about 45 miles east of here in the mountains.

The posse was coming down the trail by Young's place, and had no sooner got opposite the door when it was thrown violently open and the robbers appeared on the sill. Before the officers could recover from their surprise the two men open fire on the posse with shotguns, and then with Winchester. The posse was so demoralized by the sudden attack that they could make no effectual resistance.

The four men fell under the deadly fire of the robbers, three mortally wounded. The names of the latter are U. S. Deputy Marshal McGuinness, Dick Wilson, and L. Olsen. George Wittey, who was so badly wounded in the encounter with the robbers at Visalia, was shot through the neck, though it is not believed he is mortally wounded.

Immediately after the robbers escaped without any interference further up into the mountains in a northeast direction. The dead men and George Wittey are in Young's house, where the latter is receiving the best of care. The whole country in the neighborhood of the encounter is aroused, and is said a further attempt to take the robbers will be made. They will be shot on sight if discovered.

Small posses are being formed and starting out in different directions to head the two desperadoes off.

## Presence of Mind.

Monday afternoon a Chinaman applied at the front door of Professor Mulder's residence and rang the bell. The servant girl answered the call, and upon opening the door the brazen coolie pushed her aside and walked into the parlor. He said he wanted to examine the furniture and sell the lady of the house some bracelets. Mrs. Mulder ordered him out of the house, but he refused to go and insisted upon making himself at home.

The Professor was down town, but his wife stepped to the hall door and told her little boy to go into the bedroom and awaken his father. The Chinaman got out of the house as soon as possible after that, and made a quick retreat without further ceremony.

Lost—A pair of corduroy spring cushions in Empire, near the Morgan mill. The finder will be suitably rewarded by leaving the same at Longabaugh's store or this office.

## DISTRICT BICYCLE RACES.

## The Fair Directors Have Secured a Drawing Card.

Two days will be devoted to the bicycle races of the district wheelmen during the District Fair and the riders will make a straight break to lower the records, made in Nevada at all previous races.

Carson has her percentage of crack riders and the most improved racing bicycles have been secured for the occasion.

One thing in favor of bicycle racing is that it is almost impossible to get a young man who has not made a business of it to throw a race. There is too much pride to permit it and too much glory in winning for any amateur to enter into a crooked game, that some other parties might benefit thereby.

Some very good records have already been made in Carson, but this year will bring a most decided falling off of seconds. The Directors will have the track prepared the evening before the events and all the riders are anxious to pedal their machines to the front against everything.

Wherever bicycle races have been held before on the State or District tracks, a jam of ladies in the grand stand has always been the result.

It is a very pretty speed contest and the silent steeds propelled by athletic youths awaken considerable enthusiasm and frequently heavy bets on favorites. There is seldom a fake start and no time is lost monkeying around under the wire.

These races along with the horses will be the means of visibly increasing the gate receipts to such an extent that the \$100 subscribed by the Directors to secure medals, will be returned to the association in admissions and pool box percentages the first day.

At a meeting of the racers yesterday it was concluded to carry out the following programme, divided into two separate days:

## FIRST DAY.

First—One mile, District Championship, safety or ordinary, flying start, open to residents of District only.

Second—Half mile, safety, flying start, open to all.

Third—Quarter mile, safety or ordinary, flying start, open to all.

Fourth—Boys, quarter mile, safety or ordinary, flying start, open to any boy under 18 living in district.

## SECOND DAY.

First—Five mile, safety or ordinary, race to be run out or no contest, open to all.

Second—Quarter mile, ordinary standing start, open to District riders only.

Third—Quarter mile, safety, standing start, open to District riders only.

Fourth—Consolation race, half mile, open to losers, any age or breed.

The races will be governed by the rules of the League of American Wheelmen and three starters will be required.

They are subject to any changes the racers or directors see fit to make and any merchant who desires to offer prizes in connection with the same is at liberty to do so.

## The Stowaway.

A firm of safe manufacturers in New York which is one of the most prominent in the country, recently made overtures to "Kid" McCoy, the notorious ex-burglar, who is now appearing with "The Stowaway," with the object of having him accept a position in the employ of the firm. Mr. McCoy's services were to be used in the opening of safes of which the keys and combinations have been lost, and he was offered a big salary but declined, preferring to pursue his career on the stage, on which he expects some day to do great things outside safe blowing.

This play is to be presented in Carson shortly.

## Wanted the Child.

Last night as the passenger train was about to pull out a man by the name of Swail rushed into the rear coach and attempted to take his child from his wife who was leaving on the grounds of desertion and failure to provide. A scene ensued and the officers interfered for the mother. She claims that the child is better under her protection and the train departed without further disturbance from the father.
